

MicroMD® EMR (Electronic Medical Records)

Solo practices, large groups and health centers rely on MicroMD EMR to create a paperless environment, improve workflow, enhance care delivery and boost productivity. Immediate, shared access to patient data minimizes paperwork and maximizes productivity. MicroMD EMR integrates with your practice management system to expedite care, enhance accuracy and improve reimbursement. Available as either client-server or web-based ASP software, MicroMD EMR is a scalable and flexible solution that allows you to improve efficiency, maximize growth and meet changing regulatory requirements.

Clinical Documentation – Choose the method that works for you
